

# ***New Enhanced Interface!***

## ***Seamless Integration with Pro/ENGINEER Software***

***The new enhanced Pro/E-to-VERICUT Interface adds support for advanced features in VERICUT such as:***

- ***G-code processing***
- ***machine simulation***
- ***multiple setups***

To launch VERICUT and verify NC programs within Pro/ENGINEER, simply select the desired operations and then select the VERICUT option. What you see in the Pro/ENGINEER Wildfire window is what you get in the VERICUT window.

***The Pro/E-to-VERICUT Interface provides an easy & convenient way to verify, optimize and analyze NC programs from within Pro/E!***
